TO WHOMSOEVER IT MAY CONCERN

We are happy to inform that we have implemented **Quadra** The Construction ERP solution in our company.

The successful implementation of quadra ERP has upgraded and improved our systems and procedures to the best industry practice level. Quadra ERP has helped us tremendously in streamlining our operations and monitor the day-to-day activities efficiently. As the ERP is developed exclusively for the construction industry all aspects of our business are included.

The functional integration of all the modules has helped us exercise tight control over the project execution costs. The seamless integration of Client management, Purchase & Inventory, Contractors Billing, Fixed Assets, Salary & Payroll modules with the Financial Accounting module helps us in finalizing the accounts with ease.

The support extended by the Functional consultants and the Support staff of Quadra is good and has helped in making the implementation of Quadra in our company very successful in a short span of time.

We wish them all success in their future endeavours.

For VGN Group

D. Pruthi
(Director)
