TO WHOMSOEVER IT MAY CONCERN

It gives me great pleasure to write this letter of reference for Quadra Software Solutions Pvt. Ltd.

We at Puravankara Projects Ltd have been associated with **QUADRA** for the last 3 years. We were able to get the complete cooperation of the Quadra Software Solutions team for the implementation of the package in our construction operations.

We have been working on **QUADRA** on a live basis from 2004 onwards covering the areas such as Sales, Marketing, Procurement, Sub Contractor Billing and Payroll management. **QUADRA** has enabled us to completely integrate our site operations with our head office. This has given us instant reporting on the status and progress of all our projects. Moreover **QUADRA** has brought in a systematic workflow to our operations resulting in better management control in all aspects including costs.

We are satisfied with the backup support Quadra Software Solutions has been providing us and look forward to partnering with them in all our future projects. We have no hesitation in recommending **QUADRA** for the construction industry.

For Puravankara Projects Limited
